Experience

VoloLeads Remote
Full-Stack Developer, Contract 2026 to Present

- Turned a placeholder site into production business infrastructure using Node.js, Express, PostgreSQL, and Stripe.
- Built subscriptions, strategy-call booking, webhooks, transactional email, billing self-service, analytics, and lifecycle cron jobs.
- Deployed and maintained the system on cPanel, covering the complete customer path from checkout to renewal and failed-payment recovery.

Discount Den Dhaka, Bangladesh
Chief Marketing Officer (CMO) Jan 2023 to May 2024

- Led marketing strategy, brand positioning, growth initiatives, events, client meetings, and product planning.
- Worked with the technical team on product development and contributed to executive-level business decisions.

Private Tutor Dhaka, Bangladesh
Cambridge O-Level / Pre O-Level Instructor Jan 2022 to Present

- Teach mathematics and science one-on-one, building subject mastery, structured study habits, and academic confidence.

Education

North South University Dhaka, Bangladesh
BS Computer Science and Engineering Jan 2022 to Present
SFX Green Herald International School Dhaka, Bangladesh
A Levels: Physics, Chemistry, Mathematics (GPA: 4.5) Jun 2018 to Jun 2020
BAF Shaheen English Medium School Dhaka, Bangladesh
O Levels: Mathematics, Additional Mathematics, Physics, Chemistry, English (GPA: 5.0) Jul 2004 to Jun 2018

Skills

Languages:	Python, JavaScript, TypeScript, C, C++, Java, Dart, HTML/CSS
Web & Data:	React, Next.js, Node.js, Express, FastAPI, PostgreSQL, Firebase, REST APIs
AI / ML:	PyTorch, TensorFlow, OpenCV, LangChain, LoRA, OCR, LLMs, computer vision, data analysis
Tools & Platforms:	Git, GitHub, Codex, Cursor, OpenClawd, Stripe, Vercel, Cloudflare, cPanel, Ollama, Groq, VS Code

Selected Projects

BhashaLLM *Python, PyTorch, LoRA, OCR* github.com/Pronaaf2k/BhashaLLM
Resource-conscious Bangla AI capstone combining handwritten line OCR, 4-bit LoRA adaptation of PaliGemma 2 3B, grading, and document-grounded Q&A under a 16 GB GPU constraint.

Deep-MRIC *Deep Learning, Medical Imaging* github.com/Pronaaf2k/Deep-MRIC
Deep learning project for medical image reconstruction and classification.

QuickSight *Flutter, Python, Firebase, AI* github.com/Pronaaf2k
Mobile accessibility concept for colorblind and visually impaired users, combining color correction, image understanding, image-to-text, and text-to-speech.

ACADEMIQ *Python, TensorFlow, PyTorch, EdTech* github.com/Pronaaf2k
Research prototype exploring predictive analytics, personalized learning paths, and scalable university operations with modern ML tooling.

Awards & Achievements

IEEE Publication, BhashaLLM ieeexplore.ieee.org/document/11727246
A QLoRA-Based Framework for Bangla Text Generation and Handwritten Character Recognition.
First author, 2026 IEEE 13th International Conference on Intelligent Systems, Varna, Bulgaria.

Finalist, Solvio AI Hackathon Solvio AI, sheba.xyz, SHEstem
Placed in the top 20 among 900+ teams in a first hackathon.
